Earn a 'latte' money from coffee breaks and leave the 9-5 behind

Whether it's one cup or five, coffee lovers will stop at no end to get their fix and coffee franchise Xpresso Delight has capitalised on answering this 'dire' need.

The Xpresso Delight concept works by placing fully automated, commercial grade, gourmet espresso coffee machines into workplaces free of charge, costing just \$1 per cup. With 72 franchisees servicing over 800 coffee loving businesses throughout Australia the business is on track to take a large share of the coffee market.

QLD Master Agent Vivienne Beech said the ability to provide franchisees with an impressive return on time invested was

crucial to the success of the business.

"Xpresso Delight has a strong business model which allows franchisees to leverage their valuable time to the fullest and we guarantee a minimum return on investment of 40 percent or better each year," she said.

"Once the machines are installed they require only weekly servicing to keep on generating income, cup by cup. The average franchise can earn better than the national average wage for working under 10 hours per week."

We're seeking astute investors who know a good thing when they taste it to become franchisees and reap the rewards from a relatively passive income and perfect coffee.

For further information about franchise opportunities with Xpresso Delight, please contact **Vivienne Beech** on **0417 682 551** or email **vivienne.beech@xpressodelight.com.au**
Franchises start from **\$59,000 ex GST**
